Dear FCC,

I believe that the proposals sent to you from the ARRL and from No Code international should be the rules that you adopt... Your NPRM will take away from earned privileges of technician plus class operators ... I believe that the ARRL's proposal is a much better way to handle the Bi-Annual review of part 97. No person who has earned privileges in the amateur radio service should loose them because of this NPRM.

I also believe that Morse code should be encouraged on the amateur radio bands but NOT be a requirement for a license other then what is required by international treaty.. 5 words per minute for all HF privileges would enough to satisfy the requirements.

Thank You for reading this.

Michael Dell, N7LMJ
